Innovation & Authority

What needs to happen for women to be the default choice to lead our most ambitious projects?

#WomenInTech

Stellar Omada

How can we ensure women with the right expertise lead the conversation on where the business spends its money?

"We don't necessarily need to be the 'loudest' voice, it’s the voice of reason that should be heard."

How can we ensure women with the right expertise lead the conversation on where the business spends its money?

"We are positioning ourselves as the primary experts in the 'new world' of AI and ethical innovation by claiming our space and closing the education gap."

How can we ensure women with the right expertise lead the conversation on where the business spends its money?

"We don't need to ensure women are the default, just remove the barriers they face and they will proportionately rise."
